ASSISTANT COMMISSIONER FOR PATENTS Washington, D. C. 20231

Dear Sir:

Transmitted herewith is an Amendment and/or Reply in the above identified application.

[X] No additional fee is required.

Also attached:

The fee has been calculated as shown below:

	NO. OF CLAIMS	HIGHEST PREVIOUSLY PAID FOR	EXTRA CLAIMS	RATE	FEE
Total Claims	57	57	0	x \$18 =	\$0.00
Independent Claims	6	· 7	0	x \$84 =	. \$0.00
		If multiple claims newly presented, add \$280.00			
		Fee for extension of	time		
•					
			\$0.00		

[]	Please charge my Deposi submitted herewith.	t Account No.	16-0607 in the	he amount of \$.	An additional copy o	f this transmittal	sheet is
----	--	---------------	----------------	------------------	----------------------	--------------------	----------

[] A check in the amount of \$ ____ (Check #____) is attached.

[X] The Commissioner is hereby authorized to charge payment of any fees associated with this communication or credit any overpayment, to Deposit Account No. <u>16-0607</u>, including any filing fees under 37 C.F.R. 1.16 for presentation of extra claims and any patent application processing fees under 37 C.F.R. 1.17.

Respectfully submitted, FLESHNER & KIM, LLP

PROJECTION LENS SYSTEM

AMENDMENT AND RESTRICTION REQUIREMENT REPLY

Assistant Commissioner for Patents Washington, D. C. 20231

Sir:

IN THE SPECIFICATION

Please amend the specification by replacing paragraphs as follows:

Specification Paragraphs With Mark-ups to Show Changes Made A.

The following are mark-ups to show changes made to paragraph(s) starting at page 14, line 14 and ending at page 15, line 5:

Referring to Fig. 6, there is shown a projection lens system according to an embodiment of the present invention. The projection lens system includes a first lens 20 having a positive refractive power at the center thereof and having a negative refractive power at the peripheral thereof, a second lens 22 having a positive refractive power, a third lens 24 having a positive

PRICEINED OCA TORONO CENTER 2000 Examiner: Audrey Y. CHANG

refractive power and provided with a diffractive optical element (DOE) at one side thereof, and a fourth lens 36 having a negative refractive power. The first lens 20 consists of [a] an aspheric lens made from a plastic material to correct a spherical aberration. Also, the first lens 20 has a positive refractive power at the center thereof and a negative refractive power at the peripheral thereof to correct a comma aberration and an astigmatism. The second lens 22 is made from a glass material and is responsible for the majority of entire refractive power in the projection lens system. The third and fourth lenses 24 and 26 are aspheric and consist of a plastic lens to correct an astigmatism and field curvature. The third lens 34 has a structure in which a diffractive optical element 24A is formed at one side of the lens with a positive refractive power so as to correct a color aberration.
